

Transpro Freight Systems Receives Shipper's Choice Award For Surpassing Industry Benchmarks

Transpro Freight Systems received The Shipper's Choice Award for 2011. More notably, the company ranked first overall in both Truckload and LTL service, as voted by the Canadian shippers surveyed.

Frank Prosia, President, Transpro Freight Systems comments, "It's hard to express how great it feels to be recognized by the industry in this fashion. Our company has worked hard to get here. To be appreciated for what we've accomplished in the areas of service that matter most to our customers is phenomenal. Add to that, our ability to achieve these high standards without compromising the safety of our operation and it's a big win that we are extremely proud of."

The company currently operates from their custom built facility in Milton, Ontario and provides a full range of transportation and warehousing services. The performance indicators measured, that allowed them to win the prestigious Shippers Choice Award, included:

- On-time Performance
- Quality of Equipment and Operations
- Information Technology
- Competitive Pricing
- Customer Service
- Leadership in Problem Solving
- Value Added Service
- Sustainable Transportation Practices

Transpro Freight Systems provides reliable, cost effective solutions for their customers' Transborder LTL and Truckload requirements. They handle both dry goods and perishable products. They also offer warehousing and distribution programs and complement these asset based services with a full range of third party logistics services. The company has all the processes and security programs in place to offer seamless service across North America. The latest technology is in place to provide real time shipment visibility for their customers and the company is both ISO and Smartway certified.
